

1. Objectives of the Seminar- training

The objective of this Seminar-training is to strengthen the sustainability of EURISCO and improve data completeness through the enhancement of the quality and quantity of data flowing into the Catalogue. Hands-on training will be provided to the Spanish National Inventory Focal Person (NFP), aiming at bringing all NFPs up to the same level of development and knowledge. The Seminar, involving genebanks' documentation systems' managers, will provide up-to-date information to the members of the Spanish network of data providers to the National Inventory and raising awareness of the importance of plant genetic resources information activities.

2. Goals

The increased demand for technical support to people in charge of managing and sharing biodiversity data at national, regional and global level comes as an opportunity for Bioversity International to strength its leading technical and scientific role in the field of bio-informatics.

This seminar- training will have the goals to:

- Identify and define support needed for the further development of the NI
- Discuss and identify ways to increase the availability of NI to EURISCO
- Set a plan for new NI upload and update
- Identify NIs commitment to implementing the data exchange protocol
- Identify the type of support needed to carry out data sharing
-

AGENDA

DAY 1 CRF-INIA, Alcalá de Henares

09.00-09.30	Welcome and introductions	
09.30-10.30	Meeting with the NFP <ul style="list-style-type: none"> • EURISCO NI status • Development of the NI • Standards <ul style="list-style-type: none"> ○ Data quality and completeness ○ Data quality - tools for taxonomy and GIS checks ○ New descriptors – MLS, SMTA and AEGIS 	S. Dias, Bioversity International and E. Aguiriano, L. De la Rosa, I. Martín and L. Ayerbe CRF-INIA, Alcalá de Henares
10.30-11.00	Tea/Coffee Break	
11.00-13.00	Meeting with the NFP <ul style="list-style-type: none"> • Upload mechanism <ul style="list-style-type: none"> ○ EURISCO upload mechanism ○ Data exchange - (options for data harvesting and exchanging formats) • Global initiatives <ul style="list-style-type: none"> ○ ALIS ○ Grin-Global ○ GBIF 	S. Dias, Bioversity International and E. Aguiriano, L. De la Rosa, I. Martín and L. Ayerbe CRF-INIA, Alcalá de Henares
13.00-14.00	Lunch	
14.00-15.00	Genebank visit	
15.00-16.00	Meeting with documentation specialist	

DAY 2 Subdirección Gral. Prospectiva y Coordinación de Programas, INIA Madrid

10.30-10.45	Opening session Welcome by the Sub-director	
10.45-11.00	Welcome and introductions of objectives and the philosophy of the Seminar - Expected outcome	Lucía de la Rosa, Session chair CRF-INIA
11.00-12.00	EURISCO - today and tomorrow's European PGR information hub for seeds conservation	S. Dias Bioversity International
12.00-12.20	National Inventory and CRF active collections	E. Aguiriano CRF-INIA, Alcalá de Henares
12.20-12.30	Grain legumes collections	M. De los Mozos SIA, Albadalejito
12.30-12.50	Vegetable collections	M ^a J. Díez COMAV, Valencia and C. Mallor, CITA, Zaragoza
12.50-13 :00	Legume forage crops	F. González and M. Murillo, SIDT, Badajoz
13 :00-13.10	<i>Aula Dei</i> collections	E. Igartúa, CSIC, Zaragoza

13:10-13:30	Discussion	
13:30-14:40	Lunch	
14:40-14:50	MBG maize and <i>Brassica</i> collections	A. Ordás, CSIC, Pontevedra
14:50-15:00	Potato collections	J. I. Ruiz de Galarreta, NEIKER, Vitoria
15:00-15:10	<i>Citrus</i> trees collections	A. Medina and J. Cuenca IVIA, Valencia
15:10-15:20	Fruit trees (<i>Prunus</i> mainly)	R. Socías and M ^a . T. Espiau, CITA, Zaragoza
15:20-15:30	Nut trees collections	I. Batlle, IRTA, Lérida
15:30-15:40	Olive trees collections	C. Del Río, IFAPA, Córdoba
15:40-15:50	Grapevines collections	F. Cabello, IMIDRA, Madrid
15:50-16:00	Crucifer wild species collections	D. Draper, ETSIA, Madrid
16:00-16:30	EURISCO demonstration and use examples.	S. Dias, Bioversity International
16:30-17:30	Discussion and conclusions.
