

EURISCO News

This “EURISCO News” will be a series of e-bulletins that will be prepared in order to provide feedback to National Focal Points (NFP) as well as being a forum for NFP and others to put forward their comments and suggestions.

In order to make the EURISCO Catalogue sustainable and meeting the NFPs and users needs; I would invite all of you to contribute to this e-bulletin. All ideas, comments, suggestions, and questions are welcomed.

This first e-bulletin provides information on: [*Recent and on ongoing activities](#) having the summary analysis and results of the EURISCO visitors’ logs and surveys; [*Planned Meetings](#), [*Other business](#) and [*Releases](#).

Recent and ongoing activities

Summary Analysis - EURISCO visitors’ logs

This analysis was undertaken with the objective to asses who is looking for EURISCO, when, how often, from where and for what. To outline the actual and potential users community, to provide useful feedback to data and information providers and to better target information services making the right decisions.

Monitoring Survey’s analysis and results

These monitoring surveys analysis give an overview of the EURISCO monitoring survey (I) and of the Status of ex situ PGR National Inventories in Europe monitoring survey (II). These had the main objective to identify gaps, address quality, quantity and availability of data, in order to promote the Catalogue and NIs improvement.

Other business

The IPGRI Newsletter for Europe can be found, as downloadable files since 1996, using the following link:

SINGER holds more than half a million samples of crop, forage and tree diversity. This Catalogue (System-wide Information Network for Genetic Resources-SINGER) is an information exchange network of the Future Harvest Centres of the Consultative Group on International Agricultural Research (CGIAR) and associated partners.
